A Few Suggestions to Our Customers.

How to Order.—Use the order sheet sent with the catalogue when possible Keep a copy of your order and be sure to sign your name, post office, county and state every time you write us.

How to Remit.—Send cash with order, by Draft, Post Office Money Order. Express Money Order or Registered Letter. Postage stamps will be taken as cash.

Errors in Filling.—If there is any mistake in filling your order, let us know as soon after you receive the order as possible.

We Guarantee that all seeds, plants or other goods shall reach our customers in good condition. Report at once should there be any cause for complaint.

By Express or Freight means that we deliver the stock to the railroad here, and the purchaser pays transportation charges on receipt of the goods.

Express Rates—Plants, seeds and trees are taken by the express companies at a reduction of twenty per cent from the regular rates for merchandise. When distance in not too great it is best to order perishable plants by express; larger stock can be sent than by mail.

Seeds and trees in large quantities go safely and cheaper by freight.

Fall Setting of Trees, Plants and Vines.

Fall is a very desirable time to set Apple, Plum, Cherry, Pear and in fact all hardy trees, plants and vines. The roots calous and often start new roots and are ready for immediate growth in early spring. If the following summer is dry the advantage of Fall Setting is very marked, the roots having become caloused and ready for early growth and the soil having become settled around the roots the trees are well able to withstand a long continued drouth.

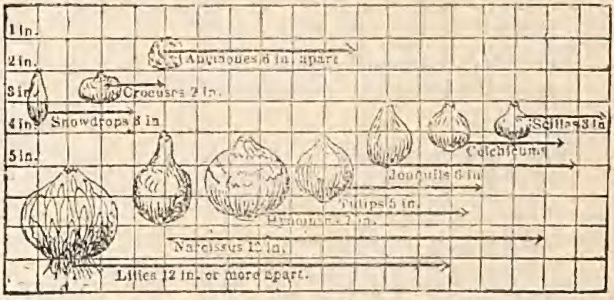
It is also possible to obtain a much better selection of stock in fall than in spring, after all of some varieties have been sold. We strongly recommend the setting of Blackberries and Red Raspberries in fall as they do much better than when set in the spring. Strawberries and Blackcap Raspberries may be set in the fall but should have careful mulching.

Discounts on Trees and Bulbs.

On all orders for $5.00 or over, when cash is sent with order, we allow a 5 per cent. discount. For discounts on Greenhouse Plants see Greenhouse Department. Liberal extras with all orders, large or small.

Depth at Which Bulbs Should be Planted.

Some of our customers sometimes inquire about the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from "Popular Gardening" conveys the information clearly and briefly. Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers.



Bulbs for Winter and Spring Blooming.

We desire to call special attention to our collection of Bulbs. We have made special efforts to secure the very best bulbs which are sure to give the greatest profusion of extra fine blooms.

Bulbs are the surest to bloom and most easily grown of all flowers.

Hyacinths, Tulips, Crocus, Narcissus, Snowdrops, Scillas, Ixias etc. are splendid for planting in fall in out-door beds. They are entirely hardy and make a marvelous display of fine blooms very early in the spring long before other flowers begin blooming

September, October and November are the best months for planting but often good success is had in planting as late as the last of December.

Protection. Except when otherwise stated the bulbs in this catalogue are perfectly hardy, but it is desrable to cover the beds with litter of some kind during the winter, to prevent freezing and thawing.

Hardy bulbs which have grown and bloomed in pots while not equal to out-door bulbs, may be dried off, kept dry until fall, then planted in open ground where they will open bloom well. It is not desirable to try to force bulbs after having been once forced.

All Bulbs 6 at Dozen Rates, 25 at 100 rates.

If ordered by express or freight at purchasers expense deduct at the rate or 40c per hundred for Hyacinths and 30c per 100 for Tulips.

State Entomologist's Certificate of Nursery Inspection.

No. 36.

This is to certify that the nursery premises and growing stock of T. C. Furnas & Co., situated in Sheridan, Ind., have been inspected according to the provisions of the law, approved March 1st, 1899, and no infections have been found of the presence of the San Jose scale or other dangerously injurious insects or plant diseases.

This certificate is invalid after June 1st, 1903.

Purdue University, LaFayette, Ind., July 15th, 1902. J. TROOP, State Entomologist.

Directions for Winter Forcing.

Every one should grow at least a few bulbs in pots for winter blooming. No class of flowers are so sure to bloom and give general satisfaction. Roman and Dutch Hyacinths, Early single and Due Van Thol Tulips, Polyantha Narcissus, Fressias, Crocus, Oxalis, and others, may be easily made to furnish an abundance of the most fragrant and beautiful blooms in the house from Christmas until spring. They should be planted from September to December in good sandy potting soil, in boxes about five inches in depth, or in five or six inch pots, about three or four Roman Hyacinths or Tulips, to each pot, and other small bulbs in proportion. Large Hyacinths should be planted singly. Place the crown of the bulb just below the top of the soil, and press the soil down firmly around the bulb. The soil should be left about three quarters of an inch below the the top of the pot for convenience in watering. Immediatly after potting set the pots in water until thoroughly moistened to the surface, then set away in a cool, dry, dark cellar for the roots to develop. After about four weeks they will be ready to be brought up and placed in a light window where the temperature is not too high, where they will soon bloom. They need not all be brought to the light at one time, but may be brought up at intervals to furnish a succession of blooms. After blooming dry off gradually and the following September the bulbs may be planted in the ground for outdoor blooming the next spring.

Dutch Hyacinths.

SINGLE HYACINTH.

Hyacinths are one of the most RELIABLE of fall bulbs. Given good soil and drainage they are sure to give a profusion of FINE bloom.

Bermuda Buttercup Oxalis.

For winter blooming in Pots or Hanging Baskets.

For continuous flowering through the winter, these Oxalis have no equals. As many as fifty flower spikes have been produced by a single well-grown plant. The flowers are of the purest bright yellow. The cultivation is the easiest possible, every one is sure to succeed with it. Price, each, 4c., 3 for 10c., doz. 30c., 1.75 per 100 by mail, prepaid.

Gladiolus. For Winter Blooming.

The varieties named below are valuable for forcing in pots for winter bloom. Three bulbs can be grown in a six-inch pot. The spikes of bloom are good, and the colors are soft and delicate. Bulbs ready in November. Cultivate same as Hyacinths.

The Bride—(Colvilli Alba.)—A light graceful variety having pure white flowers which are freely borne on long stems. It is coming more into favor as its good qualities becomes better known. 2 for 5c., doz. 20c., 100, 1.25 postpaid.

Colvilli Rubra—Red, each, 3c., doz. 30c., postpaid.

Ornithogalum Arabicum. (Star of Bethlehem.)

As an Easter decoration this flower is superb. Its immense spike of pure white flowers is simply grand. Bulb is large and solid, closely resembling the Hyacinth, and requiring exactly the same culture. Flower spikes 18 to 24 inches high, strong and graceful, bearing a large cluster of large white flowers, black center. Each, 6c., 3 for 15c., doz. 50c., postpaid.

MISCELLANEOUS BULBS.

All Bulbs sent by mail postpaid, unless noted.

Amaryllis Johnsonii—An old favorite and certainly deserves popularity. The immense trumpet-shaped flowers, which measure six to eight inches across, are borne on strong, fleshy flower spikes and are of rich deep velvety crimson, each petal having a broad white stripe contrasting beautifully with the deep red color. This is one of our grandest bulbs for winter blooming. Large bulbs, each, 30c., 3 for 85c. Mammoth bulbs, each, 50c., 3 for 1.25.

Formosissima—The Scarlet Mexican Lily, or Sacred Flower of the Aztecs, can be grown in soil or water and pebbles like the famous Chinese Lily. When grown in water they will bloom in from two to three weeks time with little care and attention—blooms intense scarlet and very freely produced. Large bulbs 15c. each, 3 for 35c., doz. 1.00.

Lily of the Valley.

FRAGRANT AND LASTING.

A bed of Lily of the Valley once planted flourishes with but little attention.

Valuable for forcing and for planting out of doors. So well known as to require little description.

Large Selected Pips—Producing enormous spikes and exceptionally large snow-white blooms. Particularly recommended for house culture. Price, each, 6c., per doz. 60c., per 100 $3.50, post paid.

Large Flowering German Pips. 6 for 15c., per doz. 25c., post paid. By express at buyers' expense, per 100, $1.50, by mail 1.80.

Large Clumps for outdoor planting, each, 25c., per doz. 2.50; per 100, 18.00, by express. If wanted by mail, add 10c. each for postage.

Iris.

(FLEUR DE LIS.) These old-fashioned flowers are very popular. An almost continuous succession of bloom may be kept in planting the following varieties.

Spanish Iris—The earliest bloomer of all the Iris, and particularly recommended for culture in pots or in open ground as they are perfectly hardy. For pot culture use 5 or 6 bulbs to a 5-inch pot. Mixed varieties in many colors, 6 for 10 cents, per doz. 15c., per 100, 1.75, postpaid.

English Iris—None the less attractive than the Spanish Iris, blue lilac and purple shades prevail. The bulbs are hardy and also suitable for pot culture. Mixed varieties in many colors, 3 for 10c., per doz. 25c., per 100, 1.75 postpaid.

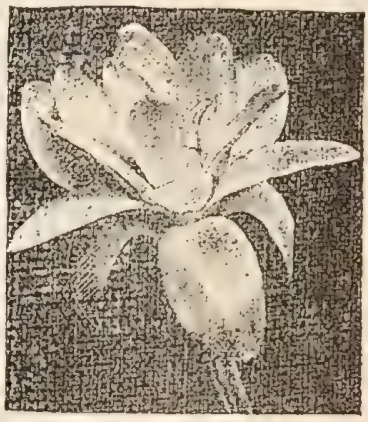
Double Ranunculus.

Curiously formed, tooth-shaped bulbs which produce flowers of handsome form and beautiful colors. Must be well protected to endure our winters, but when in bloom they will repay the slight labor incurred. They are dwarf in habit and come in various shades and colors.

French—Large double flowers, rich colors.

Persian—Very showy; double rose-shaped flowers.

Turban—Hardier than the French variety. Paeony shaped. 3 for 5c., doz. 20c., 100 for 1.00. Postpaid.



Tuberoses.

Planted in pots and given a warm place in the house from October to January these bulbs will bloom during the winter. They are pure white, wax-like, double and very fragrant. The growing plant needs light and heat and should be given the sunniest place possible.

Mammoth Bulbs—Especially selected for our retail trade; by mail, each, 7c., 3 for 20c., per doz. 60c.; by express at purchasers' expense, each, 5c., 3 for 15c., per doz. 50c., 100 for 3.00.

First Size Bulbs—By mail, 3 for 12c., per doz. 40c., by express, 3 for 10c., per doz. 35c., per 100, 2.00.

Gentlemen:—As this is my second small order in the last year, I thank you if you could give me some hints in regard to the outdoor care of Carnations. I have plants, seeds etc., from four other houses and they have given directions just how to grow them so I want to give this order a thorough trial with the rest.

Your other order was fully up to the best that I have received. Also I can get them so much quicker from you than any other house for the things that may be ordered of you can be sent in so much better condition than those ordered from so great a distance. I am arranging for a large flower garden this year and will give your plants a fair trial Wishing you the best success.

I remain Yours Respectfully.
Mr. Lota Bonher.

Greenhouse Plants.

Except when stated, prices are for plants sent postsge paid. Our plants are strong, healthy, and in every way first-class. We have made prices as low as the high grade plants we sell can be sold. We respectfully ask you to give us a trial order and see the liberal manner in which we treat our customers.

In selecting the list of varieties of greenhouse plants given in this catalogue we have been careful to select only varieties which are well suited to general house culture in winter. We have discarded all which do not do well as winter house flowers.

Flower lovers who are very successful with summer flowers often have much difficulty with winter flowers. This often comes from improper selection of varieties. We recommend only those which our experience prove to be satisfactory for winter.

The Begonias we list are all splendid winter blooming varieties. Rex Begonias are beautiful winter companions for all flower lovers.

Bridal Wreath is a beautiful climbing plant and free winter bloomer.

Coleus with their beautiful markings cannot be too highly recommended for winter house plants. Insects and diseases seldom trouble them and they thrive with little care and attention. We have a grand collection of new and fine colored coleus.

See our special offer under coleus. Try our grand collection and add brightness to the dull days of winter.

Chrysanthemums, Freesias, Geraniums are all beautiful and popular house plants. Roses the queen of flowers must not be omited and so on down the list. We take pleasure in answering questions about flowers.

T. C. Furnas & Co.

Gentlemen:

Received a letter from my sister at Emmitsburg, Md., this day, in which she says, "This evening's mail brought in some exquisite roses. They are magnificent plants, large and vigorous looking. They must be two years old at least. L—— came over and said she never saw such large ones before." Some other ladies there were anxious to learn where they came from. It is a real pleasure to deal with such a firm I assure you and you will receive further orders I am sure. Again thanking you for the attention you have given so small an order.

I am most Respectfully Yours,

Geo. P. Rowe.

Lack of space forbids extended description but each statement may be relied on, as we recommend only such varieties as have a distinct merit. Our tests of varieties this season will include a hundred or more varieties not given here, many new and untried varieties will be given a trial on our own grounds before offering them to our customers. In November we will issue our ROSE BULLETIN and Circular, giving the results of the summer work among the roses at Hopewell Farm, with description giving the virtues and faults of each variety with culture notes and seasonable hints as to protection of out-door roses, care of winter house plants etc. This will be a valuable report. It will not be for sale, but is issued for the benefit of our customers.

Our rose plants are strong, healthy and larger than are usually sent by mail. Price includes postage. Prices unless stated otherwise, 10 cents each 3 for 20 cents, 7 for 40 cents.

Hardy Varieties. Unless otherwise stated the following varieties are hardy and will withstand severe winters, but for best results should be protected during the winter. To do this the branches should be bent to the ground and the whole plant covered with leaves or evergreen boughs. Leaves are excellent for this purpose but need to be held in place by laying boards or evergreen limbs on them.

Roses repay all care given them by increased growth and beauty.

Prices include postage and are for strong well grown greenhouse plants which may be set in open ground soon as weather permits or they may be potted.

Eighteen Roses, good greenhouse plants, your selection of varieties for $1.00

We fill small orders with the same care as large ones.

Helen Gould.

There is no more satisfactory rose for general culture than this. The plant is a remarkably strong grower and free bloomer. Begins blooming while the plants are quite small and continues to bloom continually. No variety equals it for constant blooming. It is a better rose for general planting than American Beauty. Color is a rosy crimson. The flowers are full and perfectly double. The buds are very beautiful, large and pointed. It is perfectly hardy, making it one of the best for outdoor planting. For indoor planting no variety will give a greater profusion of beautiful bloom than this. Good strong plants 20 cents each.

Begonia. Gloria De Lorraine

The finest of all flowering begonias, grows from 12 to 18 inches high. Blooms continually all winter. It thrives best in a dry atmosphere such as is usually found in living rooms. There is no plant which blooms so continually throughout the winter. Strong plants 25c. each.

Century Plants.

A grand decorative house plant, increasing in value from year to. We have a fine collection of strong plants. 10 cents each.

The Ferns we offer are varieties selected for their value as house plants. Ferns are easily grown in the house and are becoming more and more popular. Try a collection and have a grand window display all winter.

THE BOSTON FERN.

(Nephrolepis Bostoniensis.)

This is a wonderfully healthy, rapid growing and graceful house plant. It has been in great demand everywhere. Its long, broad fronds are more graceful than the old Sword Fern and seem to grow faster. Thrives anywhere. Fronds are often six to seven feet long. Best of all for hanging baskets. Our plants are all well established in pots, not weak runners torn loose from soil.

Price 1st. size each 15c; 2 for 25c
" 2nd. " " 25c; 2 for 35c.

ORNAMENTAL ASPARAGUS.

Asparagus Sprengeri. Perhaps the best known plant introduced in years. Especially useful to grow as a Pot plant for decorative purposes. It grows freely the whole year round; as it withstands dry atmosphere. A vigorous grower, producing sprays four to five feet long of fresh, green, feathery foliage. Useful for bouquets, wreaths or sprays, remaining perfect for weeks after cutting.

Strong plants 10c; 12 for 1.00. Large bushy plants, each, 25c.

COLLECTION OF HOUSE FERNS.

Each, 15c; any 3 for 35c; or the collection of Six Ferns for 60c., postpaid.

Cyrtomium Falcatum.—One of the most desirable ferns for house culture. A strong growing variety, with large, deep, glossy green foliage.

Asparagus Fern.—Fine feathery foliage.

Selaginella Emiliana.—Stiff and erect fronds, 6 to 8 inches high, very useful for table decorations.

Pteris Alba Lineata.—Pretty variegated variety.

Pteris Serruleta Cristata.—A pretty crested fern.

Adiantum Cuneatum.—(Maiden's Hair.)—A very graceful plant and easily grown.

Asparagus Fern.

(Asparagus Plumosus Nanus.)

A beautiful plant, with bright green, gracefully arched foliage, fully equal to Maidenhair Ferns in grace and beauty. The fronds are twelve to fifteen inches in length and taper to a point from a width of twelve inches. One of the most beautiful decorative plants. Needs little care or attention.

Each 10c; large bushy plants, each 25c.

Violet Princess of Wales

The beautiful single flowers are of a rich violet purple with the center somewhat brighter, fragrant. Each 10 cents.

ASPIDISTRA VARIEGATA.

As popular as a palm for house decoration. The leaves are 10 to 18 inches long; splashed and striped cream-white. Thrives in the hot air of the living-room, where it increases in value and beauty with age.

Each 25c; larger plants, each 75c and 1.00 by express.

UMBRELLA PLANT.

Cyperus Alternifolius.

As decorative as a palm; does well in soil or water. A useful and beautiful window plant. Each 10c; extra size 25c.

ARAUCARIA EXCELSA

(Norfolk Island Pine.)—This beautiful plant resembles the Pine somewhat in appearance, though much finer in texture is particularly adapted to table decoration. It is most unique in appearance, the branches being arranged in neat symmetrical whorls.

Plants 12 to 14 inches high, with three to four whorls, by express, each, 2.00.

Plants 18 to 20 inches high, with 5 whorls, by express, each 2.50

SMILAX

A very graceful climber, possessing the rare qualities of delicate and dense foliage and vining habit, admirably adapting it to climbing or drooping as may be required. Fine as a parlor or window plant. Each, 10c.

POINSETTIA PULCHERRIMA

One of the handsomest of Xmas flowering plants. They are in bloom at Xmas when all flowers are in most demand.

The flowers are deep scarlet with long leaflike petals 6 to 10 inches long, forming a double row. The flowers are largely used as cut flowers at Xmas.

First size plants from 3-inch pots, each 35c; 3 for 1.00.

Furnas' Best Pansy Mixture.

Pansies delight in cool, moist weather, the largest possible amount of blooms will then be obtained. The plants may be set any time in fall or seed sown any time from September to November, either will give an abundance of spring blooms.

Furnas' best mixed plants contains the best of all the best Pansy specialities in the world. All colors, shades and markings. The largest, finest blooms to be found anywhere.

Strong plants 20c. per doz. 2 doz. 35c. postpaid.

Master-Piece. New Giant Curled.

This strain comes nearer to double pansies than anything ever introduced under that name. In reality the number of petals are the same as that in other pansy flowers but they are crumped and curled in such a fashion that the flowers appear double. The flowers are of enormous size often 3 inches across and the color variations and combination are odd and striking.

Pkt. (200 seeds) 20c., 3 for 50c.

Furnas' best mixture contains the choicest selection of pansies to be found anywhere. A bed of these will be a wonderous collection of largest blooms, finest colors and finest markings. Pkt. 5c. 3 pkts. for 10c.

Collection of Giant Pansies.

One packet (containing 50 seeds) each of Giant White, Giant Yellow, Giant Beaconfield, Giant Striped, Giant Emporer William, Giant Copper Color and Giant Paris. 7 Packets 25c. Any one for 5c.

St. Joseph, Mo..

Messers. T. C. Furnas & Co.

Gentleman: -Please accept thanks for the very satisfactorily manner in which you filled my order for flowers. My sister writes from [illegible], Md., as follows. "The carnations came in splendid condition They look so thriving. Am delighted with them and do not see how they can help but grow. I like the things from T. C. Furnas & Co., better than any others. They look so healthy, The last roses are dying as fast as they can but the ones from Sheridan are splendid looking and one has a bud on it already." I am pleased to deal with such a house and am sure you will receive future orders from that section. My only regret is that I did not deal with you last year. The money I have spent for roses has been thrown away and time lost until I ordered from you. Enclosed please find another order and P. S. P. O. for same.

Respectfully Yours,

Geo. P. Rowe
